PRESENTED BY

THE CLASS OF JUNE 1954

DEPT. HEAD

THIS IS THE YEAR

For seven long years we continued to hope and dream. Then it happened. Our Blue Devils triumphed over the Red Raiders in a mighty victory. Twice on the basketball court we met our Hill rivals and came away the winner. In cross-country, track, and all our other sports we have been in the lead. Yes, **THIS IS THE YEAR** when Terrace proudly waves her banner on high, her honor vindicated.

THOSE steps ahead are important ones . . . perhaps even more important than the ones you have left behind upon graduation from high school. Along with memories of pleasant happenings and associations, you have now gained knowledge . . . whether it be technical or academic . . . that better fits you to mount the remainder of life's stairway.

The things you have learned will combine in the future with added experience and knowledge to provide a background that will better enable you to avail yourself of the many opportunities here in America.

Each of you must realize, of course, that every opportunity implies a responsibility, and that your acceptance of responsibility may, in large part, determine your future success.

But whatever your immediate future . . . college, trade education or the beginning of your working life . . . we know you will find satisfaction and pride in the knowledge that your efforts will be recognized in a country grown great through individual effort and initiative. For, unlike far too many others in the world, ours is a country where the individual is free to live, work and speak as he pleases . . . free to reap the rewards for the contributions he makes.

The men and women of General Electric in Schenectady, therefore, extend to you our congratulations and sincere wishes that you will find a happy and satisfying future in this land of opportunity that is America.
